ENFORCEMENT AGENCY

APPROVAL

1-18-79

FINDINGS

1. This facility is an existing 10-acre Class II-2 Landfill. The trench method of operation is used. The site receives approximately one ton of solid waste per day. The site is open continuously 24 hours per day, seven days per week. Waste is covered daily from April 1 to October 1, and weekly the remainder of the year.

The types of wastes received are:

- Residential and commercial
- Tires
- Construction/demolition

2. Operation and design of the facility are as specified by the Report of Disposal Site Information dated 11-18-77: that which pertains to the period immediately prior to August 15, 1977 is hereby made a part of this finding.
3. Land within 1,000 feet of the site is zoned A-1 Unclassified.
4. This facility's operations are currently in substantial compliance with State Minimum Standards as determined by physical inspection made on 12-6-78 by SSWMB and the Siskiyou County Public Works Department.
5. This facility is included in the Siskiyou County Solid Waste Management Plan as approved by the SSWMB on November 4, 1977. A finding of need and necessity was obtained from the SSWMB on 3/28/75.
6. This facility was established as a temporary site and is scheduled to be closed in December, 1979.

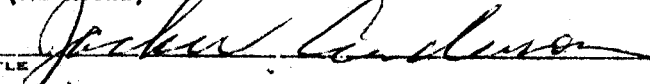

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977 or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

CONDITIONS

REQUIREMENTS:

1. This facility must comply with all the waste discharge requirements issued by the California Regional Water Quality Control Board.
2. This facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
3. This facility must comply with all federal, state, and local requirements and enactments.
4. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

PROHIBITIONS:

The following actions are prohibited at the facility:

1. Disposal of hazardous wastes.
2. Scavenging.
3. Disposal of large, dead animals.
4. Burning of refuse.

SPECIFICATIONS:

No significant change in design, or operation from that described in Items Nos. 1, 2, and 6 of the Findings Section is allowed, except for those changes which are required under the "CONDITIONS" portion of this permit.

PROVISIONS:

1. The following provisions must be met:
 - a. The operator shall furnish, install, and maintain signs directing the public to the separate dumping areas (metals, brush and garbage, etc.).
 - b. The operator shall not use old dump materials for intermediate, or final cover.
 - c. The operator shall erect litter fences as necessary in the dumping area to control litter.
 - d. The operator shall install a suitable bumper along brush burning pits to prevent site users from accidentally overrunning into pits.
 - e. The operator shall grade the landfill disposal area to drain away surface water and prevent ponding.

- f. The operator shall notify the enforcement agency at least ten (10) days prior to completion of work in order that a site inspection may be conducted prior to removal of earth moving equipment.

SELF-MONITORING PROGRAM:

Since this facility is scheduled to be closed within one year and its life is not determined by usable area, no self-monitoring will be required.
